

Piotr Biedermann

tech enthusiast, C/C++ programmer

Work Experience

TC Serwis LTD, Founder
2011 november - 2022 april

Created service management software in collaboration with a team of programmers (writing and accounting for tickets, goal setting).

E-Commerce - product placement, SEO, content creation.

Analysis of product and service records - feedback-loop with the manufacturer, briefing of customers on usage of product.

Managing the client "Żabka Polska" (convenience store chain).

Handling and collaborating with sub-contractors.

Education

42 Wolfsburg
2022 - ongoing studies
Software Engineering

Notable projects done during the course below.

Minishell - Clone of bash shell.

Philosophers - solves the philosopher problem. Received exceptional project note.

Push_Swap - uses radix to sort a stack with set rules.

MiniRT - ray tracer with ambient and diffused light.

Poznan University of Technology
2009 – 2011
Studies in Embedded Systems Engineering

Poznan University of Technology
2006 – 2009
B.Sc. in Automation and Management
Title of thesis: "Model of automatic storage house"

Date of Birth: 28.08.1984

Phone: (+48) 508 015 628

Email: piotr.biedermann84@gmail.com
